My instinct is artistic, but not in an obvious way. As a designer, I express concepts and ideas through aesthetic visual communication. As a creative, I make sure to provide a holistic experience for the users that interact with my work. As a person, I'm easy-going, open-minded, adaptable to new environments and have a good sense of teamwork. I am particularly interested in graphic design, motion graphics and photography and would relish the opportunity to gain experience in any of these sectors.
